

Sri Eshwar College of Engineering	B.E.CSE(AIML)	CGPA 7.8(3rd Semester)	2024-2028
AKR Academy School CBSE	HSC	76.4%	2023-2024
AKR Academy School CBSE	SSLC	83.0%	2021-2022

INTERNSHIP EXPERIENCES

National Institute of Technology Karnataka, Surathkal.

Completed a one-month research internship at the Centre for System Design focusing on ML workflows and engineering systems. Developed data-driven dashboards and used tools like Raptor Maps for real-time performance monitoring and analytics. Strengthened full-stack development skills and data processing pipelines within a structured, research-oriented environment

Geospatial Data Science Intern

Improved surface water body detection accuracy by 35% by developing an NDWI-based automated pipeline using Sentinel-2 satellite imagery. Reduced manual processing time by 60% through implementation of Otsu's Thresholding Algorithm to eliminate noise from shadows and urban artifacts. Conducted QGIS spatial analysis to calculate a total surface area coverage of 1,165 sq km for environmental monitoring and reporting.

PROJECTS

1.SECURE VISION – Real-Time Crash Detection & Alert System	2025
Developed a real-time accident detection system using Python, MobileNet SSD, and OpenCV to identify vehicle and pedestrian crashes. Integrated a custom GUI with the Telegram API to transmit live footage and GPS locations to emergency services, implementing a unique one-alert-per-location mechanism to ensure data accuracy and prevent false alarms.	
2.AI AGENT- Automate Without Mistakes Built an AI-powered assistant that automates	2025
Developed a Python and NLP-based assistant using Playwright to automate complex digital tasks like ticket booking and job applications via simple prompts. Secured 2nd place among 50+ teams by significantly reducing manual effort through high-speed, accurate task execution and a seamless web interface.	
3.Smart Tourist Safety Monitoring & Incident Response System	2025
Developed a Flutter/Firebase safety platform featuring GPS tracking, SOS alerts, and offline support. Integrated TensorFlow Lite for anomaly detection and Web3.py for blockchain-based digital ID verification, alongside community hazard reporting via Google Maps API.

Leetcode- Global Rank: 15,04,308 | Problems Solved : 100+ | Profile Link: [LINK](#)

CERTIFICATIONS

C++ Programming Course (Hands-On) IIT Bombay	C++	2024
Programming Specialist IIT Bombay	C++	2024
Web Development: HTML & CSS Certification W3Schools	Web Development	2025
JavaScript Programming Certification W3Schools	JavaScript	2025
Python 3.x: 50 Very-Easy Challenges SkillRack	Python	2025
C++ Programming: Very-Easy Challenge Series SkillRack	C++	2025
C Programming: Very-Easy Logic Series SkillRack	C	2025
Introduction to Database Design with MySQL upGrad	Database	2026

ACHIEVEMENTS

Third Runner-up Freshathon 2k'25 (Project Expo)	2025
Second Runner-up VIYUGAM 2k'25 (Paper Presentation)	2025
Second Runner-up, UDHAYAM '26, (Paper Presentation (AI & ML))	2026
4th Runner-up UDHAYAM '26 (Paper Presentation (CSBS))	2026
Second Runner-up VYUGA '26 (Ideathon)	2026
Third Runner-up VYUGA '26 (Startup Arena)	2026

SKILLS

Languages	C C++ Java Python JavaScript SQL
Web Technologies	React HTML CSS JavaScript (Basics)
Tools	Jupyter Notebook VS Code GitHub Power BI MySQL Workbench Excel Canva PowerPoint MS Word
Soft Skills	Public Speaking / Technical Presenting Communication Leadership Team Management
Core Concepts	Data Structures & Algorithms (DSA) Object-Oriented Programming (OOPS) DBMS
